FOR IMMEDIATE RELEASE

VersaCheck® 2008 #1 Finance and Check Creation Software Released

San Diego, CA—June 26, 2007-- G7 Productivity Systems has released its Windows Vista certified VersaCheck® Finance and Check Creation software line for 2008. Versions include Presto, Gold, Silver, Platinum, and Ultimate. Also certified for Windows Vista is VersaCheck® 2008 for QuickBooks®, and VersaCheck® Payroll. Every VersaCheck® software title includes everything needed to print 100% bank-compliant checks. With the unique ability to seamlessly import records from financial software, check data is easily merged with a large choice of electronic check templates. Printing checks on VersaCheck® blank security check paper saves users 50-80% vs. pre-printed checks by mail-order or banks*, and ensures compliance with financial industry standards. VersaCheck® software titles, MICR ink (required for bank code line) and security blank check paper are available from select retailers and www.versacheck.com

Affording users unique benefits to check writing, Scott Givens, Director of Marketing at G7 states, “The complete VersaCheck® 2008 system is engineered so users can easily create checks that are 100% compliant with ANSI X9 specifications and check processing laws in the US and Canada. Integrated Bank Validation Technology ensures checks meet financial industry standards for both security and bank equipment magnetic scanning.”

Additional features of the 2008 VersaCheck[®] line include enhanced security through the TrueSign[™] digitized and password optimized signature creator. Registered users of any 2008 version receive unlimited technical support and an exclusive free magnetic ink check printer offer (details inside the package). G7 has also included its 4X UltraSaver[™] ink management software in all its VersaCheck[®] titles, a \$39.99 value, which increases inkjet printer yield by 400%.

All versions of VersaCheck[®] support quick and easy finance management and work with popular accounting programs like QuickBooks,[®] Quicken,[®] and Microsoft[®] Money. VersaCheck[®] Silver 2008, created for home use, generates personal checks; the Gold 2008 version creates checks for personal and business applications. VersaCheck[®] Platinum is tailored for business users with additional functionality to create invoices, estimates and business cards. The flagship of the line, VersaCheck[®] Ultimate targets more robust business enterprises by integrating with most accounting titles and is licensed for up to 20 simultaneous users. Version comparison information is available at www.versacheck.com.

Brad Goldberg, General Manager for Windows Vista Product Management at Microsoft Corp. said, “By certifying their entire VersaCheck[®] 2008 software line, G7 Productivity Systems demonstrates that their products have met explicit standards of reliability and quality, and have been tested and proven to deliver a superior experience for their customers with a PC running Windows Vista. Microsoft is pleased that G7 Productivity Systems has earned the Certified for Windows Vista software logo in this line and many more of their applications.”
