FOR IMMEDIATE RELEASE

Get 4X Ink Cartridge Yield With Nano Technology!

San Diego, CA--April 6, 2006--G7 Productivity Systems, Inc., announces revolutionary 4X Life Cartridge Technology. This breakthrough in inkjet technology is the result of applied nano-technology and new ink flow management software. Never before has inkjet printing allowed users to print and save!

The VersaInk-nano 4X enables users to achieve superior print quality and simultaneously extend cartridge yield dramatically. When the ink is used in conjunction with G7's universal UltraSaver ink flow software, it extends the cartridge life by up to 4X!

Save even more by using VersaInk-nano 34mx black cartridges to print your own custom bank-compliant checks. VersaInk-nano 34mx contains magnetic pigments, which ensure 100% compliance with government and banking regulations. Combine with VersaInk-nano 35 color cartridges to print precise text, vibrant images, brilliant photos and more with color ink featuring next generation pigment technology. VersaInk-nano delivers unmatched protection against fading and fraudulent alterations while creating everlasting documents with flawless print quality.

VersaInk-nano is ideal for use with any home, business, financial, and desktop publishing application. In addition, G7 offers VersaCheck, a family of finance management and check creation software and security check paper to complete a hassle free solution for managing finances and printing checks. VersaInk-nano is priced comparably to standard ink, but offers critical quality benefits and cost savings in the long run.

Currently, VersaInk-nano superyield is available at Fry's, www.outpost.com, Officedepot.com and others. More distribution channels for VersaInk-Nano 4X will be launched in the near future. Also, visit www.g7ps.com to see a complete list of supported printer models, cartridges, and for updates on future products.
